## **LABEL IT!** EZ-LABEL PRINTER

## Introducing Labels to Implement and Continue 5S!

KL-G2

Did you know?  
Each staff member who doesn't practice 5S

loses **30** min per day = **15** days a year

<Provisional simulation>  
Assuming the staff member wastes 30 minutes per day looking for items, and has a 20-day working month. (30 minutes x 20 days x 12 months = 7,200 minutes)

**Let's start 5S now!**

**Reliable & Durable**

## The first step is understanding 5S

"Sort" means to divide necessary and unnecessary items. Throw away items you don't even use once a year. Move items that you only use occasionally out of the way.

"Set in Order" means to place necessary items in an easy to use place. Arrange items so that anyone can see them at a glance.

"Shine" means to continually clean in order to keep everything neat and clean.

### Targets of 5S

#### Man

Understand the importance of 5S, implement 5S

#### Material

All items inside a factory are applicable to 5S

#### Machine

All equipment inside a factory is applicable to 5S

#### Method

Realisation of working methods that adhere to 5S

#### Information

Management and sharing information that relates to 5S

### Continuing: S 1 to 3

Standardize is the method in which S 1 to 3 (sort, set in order and shine) are executed and continued.

### Habitualizing: S 1 to 4

"Sustain" is the habitualization of S 1 to 4 above (sort, set in order, shine and standardize) to incorporate them into daily activities.

**Implementing 5S removes a wide range of corporate risks and losses, including human errors, injuries and mistransmission.**

## Introducing 5S will radically change your company

### Goals of 5S ~ Changing the Working Environment ~

#### 1 Safe workplace

Enhancing safety measures in the workplace increases the effectiveness of workplace accident prevention.

#### 2 Optimized workplace

Organizing items optimises the working environment, making it easier for people to work. It also optimizes personal and working relationships.

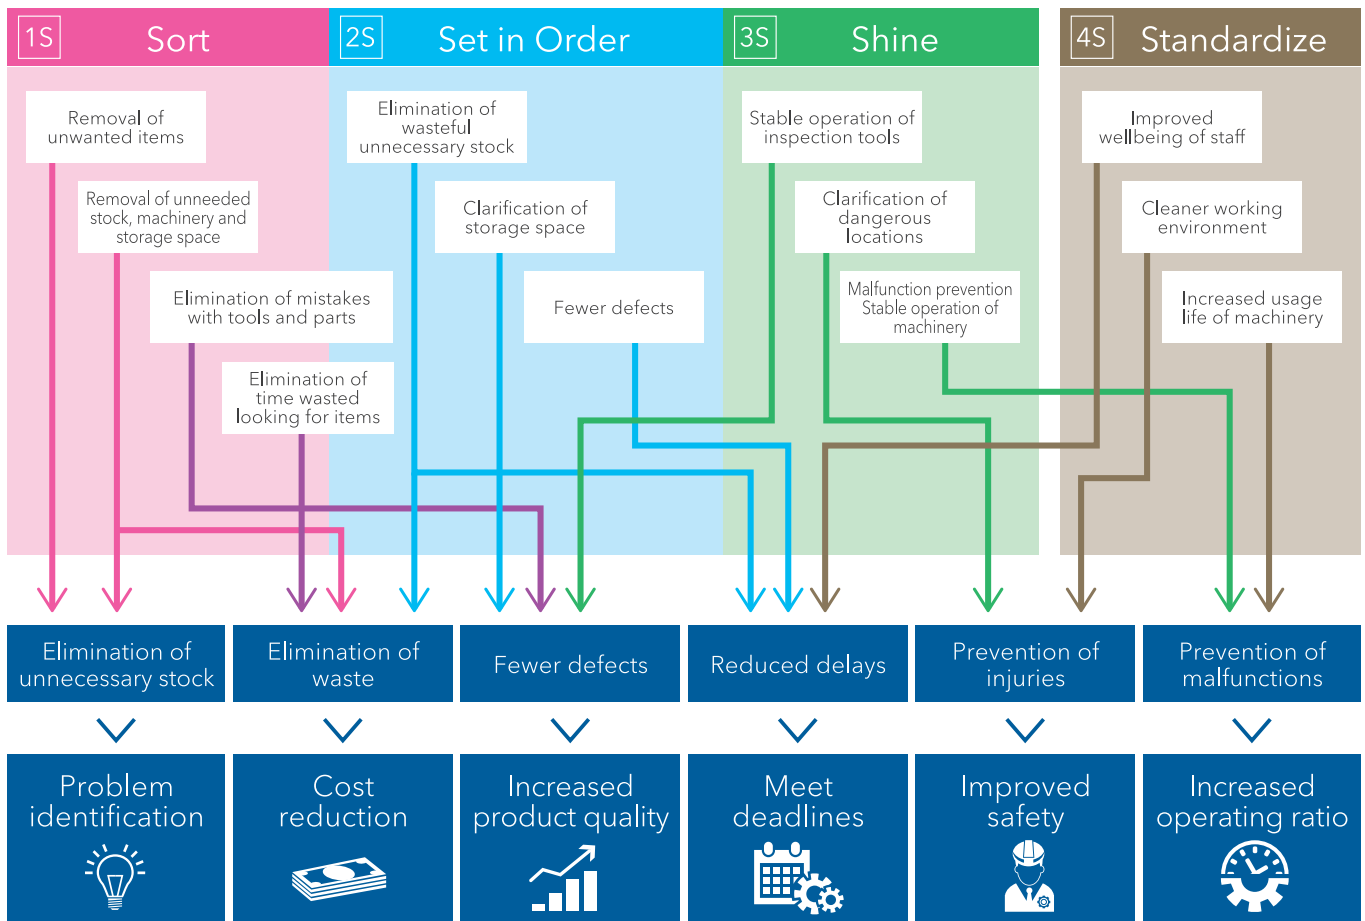

#### 3 Effective workplace

Optimization of people, items, equipment, working methods and information. This greatly reduces working losses, leading to increased workplace efficiency.

### Effects of 5S

#### 5S Sustain (habitualizing: S 1 to 4)

## Labels are needed to implement 5S

Label printers enable sorted items to be easily set in order, enable new items to be added in the same state, and make it possible to maintain the standardized format.

### Usefulness of label printers

Without labels...

Difficult to read, disarrayed. Sticky notes get lost, causing confusion.

With labels...

Color, width, font, etc. are unified for each material, making differences instantly noticeable.

### Label printers are more suited to 5S than handwritten labels

Even fine print is easy to see

CASIO CONSTRUCTION Co.Ltd  
ROBERT SMITH  
Blood type: A  
\*Actual size

Easy to read  
No errors

Arranged by color for simple clarity

Excellent durability

Adhesive backed  
Can be attached immediately

### Label printers remove the trouble and inconvenience of inkjet or laser printers!

Choose from a wide range of tape widths, with a fixed length

Choose the type of label according to your type of use

Easy, no fuss

Printer, etc.

Print, cut and paste

With labels

Attach immediately!

### Huge contribution to 5S! Amazing feedback from companies that have adopted 5S!

Machinery, equipment and even names are easier to understand!

Supports a wide range of local languages\*

Sense of unification

Employees take better care of items

Labels printed in the same fonts are useful for 5S

Labels look good!  
Easy to distinguish files!  
Huge reduction in time and effort to find files!

## Labels easily improve work efficiency.

### BEFORE

Workplaces that do not use 5S lack thorough management and organization, resulting in time loss, defects and employee injuries.

### AFTER

Labels can be used to easily implement 5S. Managed and organized workplaces are smart workplaces.

A: Equipment management

B: Storage management

C: Line/storage position management

D: Material management

E: Safety management

## Labels can be used effectively in many ways to implement 5S

### 1 Cable management

BEFORE

AFTER

Recommended labels  
**Cable Flexible Tape**

**LINE A-01**

**Heat Shrink Tube**

Effects

- Clean workplace
- Time reduction
- Increased safety

### 2 Safety management

Recommended labels

Effects

**Color Tape**

- Prevention of accidents
- Prevention of injuries
- Increased safety

### 3 Equipment management

Recommended labels

Effects

**High-strength Adhesive tape**

Sales floor printer  
CA-001

No. BCG-11342  
Personnel Dept.  
CASIO

Labels stick firmly with  
high-strength adhesive  
tape for peace of mind.

- Eliminate time wasted looking for items
- Safety Management

### 4 Machinery and tool management

Recommended labels

Effects

**Color Tape**

- Increased safety
- Reduces waste
- Reduced personnel costs

### 5 Reminders

Recommended labels

Effects

**Fluorescent Tape**

- Prevention of accidents
- Thorough in-house organization

Create a larger label from 4 pieces of 18mm tape

## Casio has an extensive range of tapes to help you achieve 5S

### 6 Stock management

BEFORE

AFTER

Recommended labels

**Color Tape**

Use with barcodes and arrow labels for easy management of items

**Effects**

- Prevention of pick-up mistakes
- Improved stock management
- Eliminate time wasted looking for items

### 7 Clarifying storage

Recommended functions

**Effects**

**Numbering**

- Improved operation rate
- Accident prevention
- Mistake prevention

### 8 Progress management

Process Foreman ( 8 MAY 2021 )			
Time	Morning	Afternoon	Night
Line A	9:00-12:00	12:00-18:00	18:00-24:00
Line B	Daniel Lee	John Scott	David Johnson
Line C	Albert Falkner	Albert Falkner	David Johnson
Line D	Michael Martin	Michael Martin	David Johnson
Line E	Jayden Moore	Jayden Moore	David Johnson

Recommended labels

**Effects**

**Magnetic Tape**

- Eliminate time wasted looking for items
- Improved operation rate

### 9 Material management

Recommended functions

**Effects**

**Barcode Printing**

- Eliminate time wasted looking for items
- Safety Management
- Mistake prevention

### 10 Office management

Recommended labels

**Effects**

**Color Tape**

- Eliminate time wasted looking for items
- Improved operation rate
- Mistake prevention

## Our special software will help you keep your working space organized with minimum efforts.

### LABEL DESIGN MAKER\*

LABEL DESIGN MAKER is an application used for creating labels. You can create your own original labels or quickly and easily produce labels by choosing from a wide variety of label samples searchable by category or situation and editing samples.

Free Download

Label Design Maker

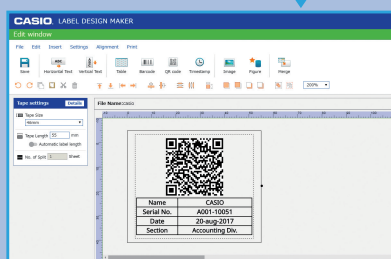

Original labels

Search by category

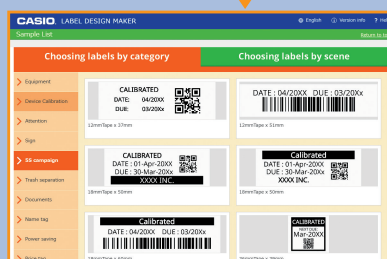

Search by situation

#### Label samples

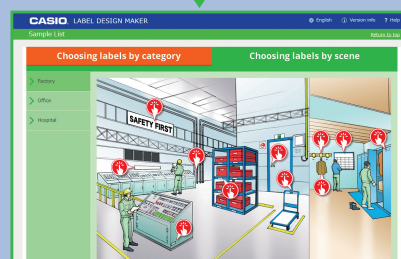

Name	Computer
Serial No.	A001-10051
Date	20-Apr-20XX
Section	Accounting Div.

You can freely create original labels.

A wide variety of label samples is available. Samples are searchable by category (materials management, equipment calibration, etc.).

Label samples are searchable by setting (factory, office, etc.).

\*For details, see <http://labeldesignmaker.casio.jp/en/>

## Examples of Continued 5S Use

### POINT 1 Doing some kind of 5S activity every day

Whether during cleaning, sorting storage or in a workplace meeting, continue doing some kind of 5S activity every day. Continual practice makes it feel natural, and you'll soon realise that 5S poses no obstruction to your normal work practices.

Companies implementing  
Example 5S activities continually for  
10 years

10 minutes of  
cleaning after  
lunch every day

#### Staff Comments

"I've never thought I wouldn't be able to do my normal work because cleaning gets in the way."

"We have cleaning duties every day, so I just think of it as something I have to do."

"When I do my cleaning duties, I feel like it makes me ready for my afternoon work."

### POINT 2 Information Sharing

#### ① Implementation of 5S Patrols

- I Creation of checklists, and clarification of achievement standards.
- II Photographs and videos are taken. Evaluated on a 1 to 5 scale and attached to a notice board.
- III Profit evaluations are made for improvement results in "per workplace" and "per month".
- IV New goals are set, and new activity plans are established and implemented every year.

#### ② Selection of a 5S implementation team

- I Roles of the members clarified (include all members)
- II Leadership is rotated (5S staff training. 1 year term is ideal)

#### ③ Creation of "5S Prize"

Spotlight employees who are actively implementing 5S to increase the motivation of those who create opportunity.

#### ④ Factory tours of factories that have successfully implemented 5S
